Name of Agency

OTHER SPECIAL FUNDS

The Board's revenue and only source of funding is from the fees and fines collected by the Board from applicants and registrants. During FY20, the Board's income was \$684,977. The estimated income for FY21 is \$70,000, and it is \$685,000 for FY22.

IMPORTANT REMINDER: The Board has a two-year income cycle. Over 80% of the Board's income is generated by license renewals in odd-numbered calendar years, which correlates to even-numbered fiscal years. Over this two-year cycle, the Board must maintain adequate cash for the non-renewal years (odd-numbered fiscal years), during which expenditures exceed income, when the balance in the special fund is at its low point.

Changes affecting fees/funding: The Board anticipates that licensure and application fees will remain the same until at least 2025 or 2027. The Board's last fee increase was in July 2015, at which time the Board anticipated no additional fee increases until 2025, holding to its goal of 10-year intervals between fee increases. The removal of some inter-agency fees during this period should allow the Board to extend the interval between fee increases.

TREASURY FUND / BANK

All monies collected through the mail and through the online E-Gov electronic process are deposited into the State Treasury. The Board no longer has a separate bank account for transferring funds to the State Treasury. The Board has a two-year income cycle. During the two-year cycle, over 80% of the the Board's revenue is generated in even-numbered fiscal years.

Board of Architecture

1 - Licensure & Regulation

Name of Agency

Program Name

I. Program Description:

The mission of the Mississippi State Board of Architecture (MSBOA) is to serve the State of Mississippi by protecting and preserving the life, health and property of the Mississippians who live, work, and play in the built environment through the regulation of the professions of architecture, landscape architecture and certified interior design. This regulatory board is responsible for establishing and policing licensure standards for architects, landscape architects and certified interior designers. The Board is also tasked with regulation of these practices, which is accomplished through the disciplinary proceedings provided by law and through effective rules and regulations established by the Board.

Licensure and regulation of these professions is critical, as great harm could come to the public as a result of poor or negligent practice. A building failure or collapse, a blocked path to safely exit a building or space in an emergency, unsafe or nonexistent ADA entrances and exits, or unsafe circulatory routes are but a few examples of risks resulting from poorly designed buildings, interiors and outdoor spaces/project sites.

From a regulatory standpoint, the Board receives complaints from consumers and officials regarding unlicensed practice, negligent practice, and unethical practice. Through an administrative hearing process overseen by the AG's office, and one which assures due process to the accused, the Board may take disciplinary or corrective action ranging from a monetary fine, to license probation, suspension or revocation. Absent the state's regulatory board, a wronged consumer's only recourse would be through the court system.

II. Program Objective:

Professional Licensing/Certification: Efficiently issue licenses and certificates to qualified individuals (Miss. Code Ann. Sections 73-1-1 et seq., 73-2-1 et seq., and 73-73-1 et seq.).

- Ensure, through a thorough and efficient process and involvement in national regulatory and testing organizations, that any individual obtaining licensure, certification or renewal has the necessary skills and knowledge to practice.
- Establish and enforce appropriate requirements for education, experience and examination and administer a licensing system that ensures complete and accurate application review and licensure tracking.

Regulation and Enforcement: Ensure through regulation and enforcement that registered design professionals protect the public's life, health and property (Miss. Code Ann. Sections 73-1-1 et seq., 73-2-1 et seq., and 73-73-1 et seq.).

- Establish and enforce regulatory standards of practice for registered architects, landscape architects, and certified interior designers, regulating in the least restrictive manner possible.
- Prevent violations by proactively educating licensees and certificate holders of practice requirements and standards.
- Protect consumers and users of the state's built environment by adopting relevant and current practice standards, disciplining violators through an open and fair complaint adjudication process, and promoting continued competency on the part of registrants through mandated continuing education.

Communications, Outreach and Organizational Effectiveness: Proactively educate interns, applicants, licensees, certificate holders, and other parties regarding registration and practice requirements and standards and provide exceptional customer service (Miss. Code Ann. Sections 73-1-1 et seq., 73-2-1 et seq., and 73-73-1 et seq.).

- Increase public and professional awareness of the Board's mission, activities, and services and enhance organizational effectiveness.
- Demonstrate a commitment to being fiscally responsible and responsive.

III. Current program activities as supported by the funding in Columns 6-15 (FY 2021 & FY 2022 Increase/Decrease for continuations) of MBR-1-03 and designated Budget Unit Decisions columns of MBR-1-03-A:

(D) Continuation of Services:

PROGRAM NARRATIVE

Program Data Collected in Accordance with the Mississippi Performance Budget and Strategic Planning Act of 1994
(To Accompany Form MBR-1-03)

The Board's FY22 request represents a very slight increase (less than 1%) compared to the FY21 appropriation. The contractual expenses category was increased slightly due to a projected increase in inter-agency fees paid to the Department of Finance and Administration for use of the Mississippi Management and Reporting System (MMRS), a slight increase in payments made to the Department of Information Technology Services, and a small increase in membership dues paid to national regulatory councils. The Board's request will allow the continuation of the current slate of services.

NARRATIVE
2022 BUDGET REQUEST

Board of Architecture (848-00)

Name of Agency

The Board's single program is Licensure and Regulation, with the basic mission of protecting the public's life, health and property. The Board serves the public through the licensure of architects and landscape architects, and through the certification of interior designers, as well as regulation of all three professions. The Board has a full-time staff of 2, and is supported by a contracted investigator and legal counsel. In addition, there are 5 board members (architects), 5 landscape architect committee members and 5 interior design committee members. The Board is diligent in its efforts to be proactive, professional, effective and fiscally responsible with the funds it collects through this program. The Board is funded entirely through licensure fees and regulatory fines, with no funds from the general fund.

The Board's FY22 request represents a very slight increase (less than 1%) compared to the FY21 appropriation. The contractual expenses category was increased slightly due to a projected increase in inter-agency fees paid to the Department of Finance and Administration for use of the Mississippi Management and Reporting System (MMRS), a slight increase in payments made to the Department of Information Technology Services, and a small increase in membership dues paid to national regulatory councils. The Board's request will allow the continuation of the current slate of services.

More details regarding the Board's program objectives are provided in section 9-1, Program Narrative.
