Part 202 Chapter 2: Professional Code of Conduct

Preamble

The primary purpose of the Rules of Professional Conduct for Landscape Architects is to safeguard the health, safety and welfare of the public and to eliminate unnecessary loss and waste in the State of Mississippi. The Committee has taken into account the fact that the public views the Landscape Architect as a registered professional involved in a leadership position in the construction process and relies on the registered professional to help safeguard the public interest. The following rules shall be binding upon every person holding a Certificate of Registration to practice Landscape Architecture in the State of Mississippi.

All persons registered or seeking registration in the State of Mississippi as Landscape Architects under the Landscape Architectural Practice Law are charged with having knowledge of these Rules of Professional Conduct and shall be familiar with their provisions and understand them. Such knowledge shall encompass the understanding that the practice of landscape architecture is a privilege, as opposed to a right.

Rule 2.1 Responsibility to the Public.

2.1.1 The Landscape Architect's primary obligation shall be to protect the health, safety and welfare of the public in the performance of his/her professional duties.

2.1.2 A Landscape Architect is encouraged to seek professional employment on the basis of qualifications and competence for proper accomplishment of the work. This procedure discourages the Landscape Architect from submitting a price for services until the prospective client has selected, on the basis of qualifications and competence, one Landscape Architect or firm for negotiations; however, competitive price proposals may be considered for professional landscape architectural services under the following guidelines:

- A. The prospective client has first sought statements of qualifications from interested registrants, and
- B. Those registrants chosen by the client on the basis of qualifications and competence for proper accomplishment of the work have received in writing a comprehensive and specific Scope of Work prepared by the client or the client's representative that completely describes the factors affecting the required landscape architectural services, and
- C. Assurances have been given by the prospective client that factors in addition to price will be considered in selecting the professional Landscape Architect.

Rule 2.2 Competence.

2.2.1 In practicing landscape architecture, a Landscape Architect shall act with care and competence, and shall apply the technical knowledge and skill which is required of Landscape Architects, practicing in the State of Mississippi.

2.2.2 In designing a project, a Landscape Architect shall take into account all applicable state and municipal building laws and regulations. While a Landscape Architect may rely on the advice of other professionals (e.g. attorneys, engineers, and other qualified persons) as to the intent and meaning of such regulations, once having obtained such advice, a Landscape Architect shall not knowingly design a project in violation of such laws and regulations.

2.2.3 A Landscape Architect shall undertake to perform professional services only when he or she, together with those whom the Landscape Architect may engage as consultants, are qualified by education, training and experience in the specific technical areas involved.

2.2.4 No person shall be permitted to practice landscape architecture if, in the Committee's judgment, such person's professional competencies are substantially impaired by physical and/or mental disabilities.

2.2.5 A landscape architect, if properly qualified by training, education and experience, may perform construction management services without obtaining any additional license or certification, provided that the landscape architect does not perform any construction work on the project being managed.

Rule 2.3 Conflict of Interest.

2.3.1 A Landscape Architect shall not accept compensation, financial or otherwise, for landscape architectural services from more than one party on the same project unless the circumstances are fully disclosed and agreed to by all interested parties and such disclosure and agreement are in writing.

2.3.1 A Landscape Architect shall not knowingly solicit or accept employment for professional services for any work which another Landscape Architect has been exclusively employed to

perform and with which work the other professional is no longer to have any connection, without first having been advised in writing by the Landscape Architect's prospective employer that the employment of the other professional has been terminated.

2.3.3 If a Landscape Architect has any business association or a direct or indirect financial interest which is substantial enough to influence his or her judgment in connection with the Landscape Architect's performance of professional services, the Landscape Architect shall fully disclose in writing to the Landscape Architect's client or employer the nature of the business association or financial interest, and if the client or employer objects to such business association for financial interest, the Landscape Architect will either terminate such association or interest or offer to give up the commission or employment.

2.3.4 A Landscape Architect shall not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing their products.

2.3.5 The Landscape Architect shall not solicit or accept gratuities, directly or indirectly, from contractors, their agents or their parties in connection with work for which he/she is responsible.

2.3.6 When acting as the interpreter of building contract documents and/or the judge of contract performance, a Landscape Architect shall render decisions impartially, favoring neither party to the contract.

2.3.7 The Landscape Architect shall not solicit or accept a contract from a governmental body on which the Landscape Architect or a principle or officer of his/her organization serves as a member.

2.3.8 When a Landscape Architect is employed in a full or part-time position, he/she shall not use the advantages of his/her position to compete unfairly with other professionals. A Landscape Architect for any county, city or public entity board or agency, where plans or documents must be submitted to him/her for review, approval or a recommendation for approval, cannot review, approve or recommend approval of his/her own plans or documents, or plans or documents prepared by any member of the firm in which he/she is a member.

Rule 2.4 Full Disclosure.

2.4.1 A Landscape Architect, making public statements on landscape architectural questions, shall disclose when the Landscape Architect is being compensated for making such statements.

2.4.2 A Landscape Architect shall accurately represent to a prospective or existing client or employer the Landscape Architect's qualifications and the scope of the Landscape Architect's responsibility in connection with work for which the Landscape Architect is claiming credit.

2.4.3 The registrant shall not falsify or permit misrepresentation of his or her associates' academic or professional qualifications. He/she shall not misrepresent or exaggerate his/her degree of responsibility in or for the subject matter or prior assignments. Brochures or other

presentations incidental to the solicitation of employment shall not misrepresent pertinent facts concerning employer, employees, associates, joint ventures or past accomplishments.

2.4.4 If, in the course of the Landscape Architect's work on a project a Landscape Architect becomes aware of a decision taken by the Landscape Architect's employer or client, against the Landscape Architect's advice, which violates applicable state or municipal building laws and regulations and which will, in the Landscape Architect's judgment, materially and adversely affect the safety of the public on the finished project, the Landscape Architect shall:

- A. Report the decision to the local building inspector or their public official charged with enforcement of the applicable state or municipal building laws and regulations, and
- B. Refuse to consent to the decision, and
- C. In circumstances where the Landscape Architect reasonably believes that other such decisions will be taken notwithstanding his/her objection, terminate his/her services with reference to the project.

2.4.5 A Landscape Architect shall not deliberately make a false statement or fail deliberately to disclose a material fact requested in connection with the Landscape Architect's application for registration or renewal.

2.4.6 False or malicious statements: A licensee shall make no false or malicious statements which may have the effect, directly or indirectly, or by implication, of injuring the personal or professional reputation or business of another member of the profession.

2.4.7 A licensee who has knowledge or reasonable grounds for believing that another member of his/her profession has violated any statute or rule regulating the practice of his/her profession shall have the duty of presenting such information to the Committee.

2.4.8 A Landscape Architect shall not assist the application for registration of a person known by the Landscape Architect to be unqualified in respect to education, training, experience, or character.

2.4.9 A Landscape Architect possessing knowledge of a violation of these rules by another Landscape Architect shall report such knowledge to the Committee.

2.4.10 In the case of where a firm name is considered a "trade name", the name of at least one (1) landscape architect licensed in this state must appear on any announcement, stationary, printed matter or listing. Example: ABC Landscape Architects, John Doe, Landscape Architect

Rule 2.5 Compliance with the Law.

2.5.1 A Landscape Architect shall not, in the conduct of the Landscape Architect's practice, knowingly violate any state or federal criminal law directly related to the duties and responsibilities of the practice of landscape architecture.

2.5.2 The registrant shall not furnish services in such a manner as to enable unregistered persons to evade federal, state and local building laws and regulations, including building permit requirements.

2.5.6 An individual seeking a landscape architectural commission or participating in a design competition for a project in Mississippi involving landscape architectural services shall be admitted to Mississippi for the purpose of offering to render landscape architectural services and for that purpose only if:

Rule 2.6 Professional Conduct.

2.6.3 A Landscape Architect shall neither make nor offer to make any gifts, other than that of nominal value (including, for example, reasonable entertainment and hospitality), with the intent of influencing the judgment of an existing or prospective client in connection with a project in which the Landscape Architect is interested.

2.6.4 A landscape architect shall not engage in conduct involving fraud or wanton disregard for the rights of others.

2.6.5 A landscape architect may issue a price proposal or bid for the design and construction of a public project only if doing so as a design/build bid where the bids for both design and construction are submitted in the same proposal in accordance with the design/build provisions for public projects per *Miss. Code Ann.* §31-7-13, or other applicable statutes or provisions.

2.6.6 In the case where a landscape architect is awarded the design contract for a project, whether public or private, which will be competitively bid, neither the landscape architect, nor any entity owned in whole or part by the landscape architect, may bid for the construction, installation and/or implementation of the project.

Commentary: The Committee has recently been made aware of situations in which a landscape architect prepared plans and specifications for a public project, and then bid on and was awarded the construction contract for the project. The Committee is of the opinion that such a situation potentially creates a conflict of interest for the landscape architect in that the landscape architect is the designer and the contractor for the project thus removing the checks and balances which assure that the project is constructed in accordance with the plans and specifications.
